**"Connecting Power,  
Empowering Progress."**

## ABOUT US

Sagar Infra Projects is an emerging **EPC** company in the field of power transmission and renewable energy. We deliver reliable solutions in **Solar & Wind power systems, 33/11KV substations and transmission lines.**

We take pride in our ability to provide **end-to-end EPC services**, ensuring projects are completed with quality, safety, and timely execution. Our work is guided by strong technical knowledge, attention to detail, and a commitment to long-lasting performance.

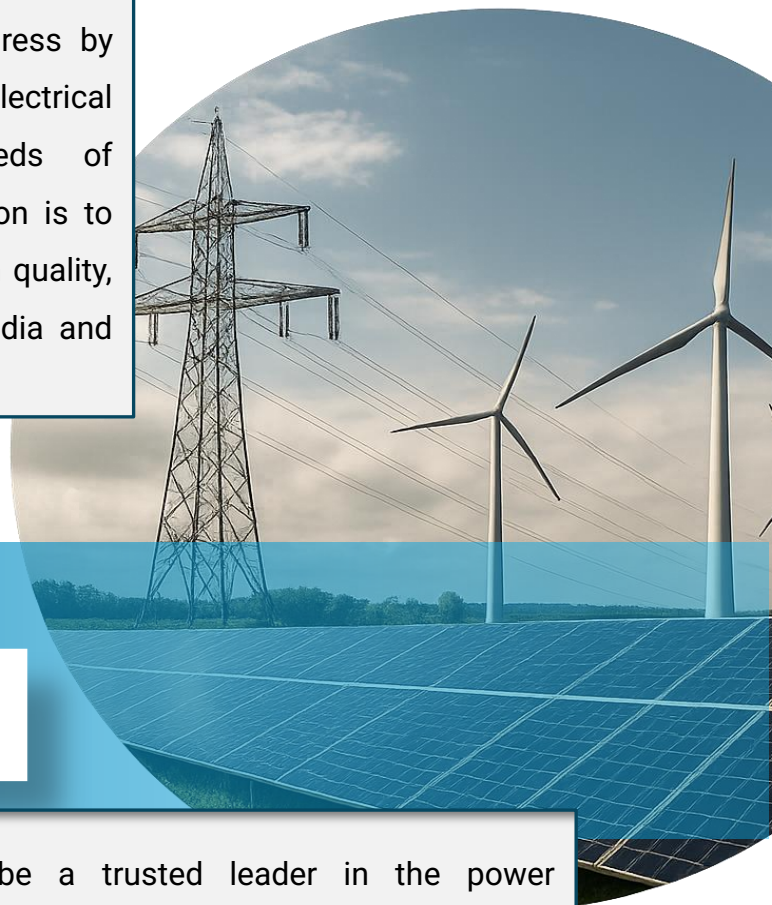

At Sagar Infra Projects, we believe in building infrastructure that supports growth and sustainability. With a focus on excellence and client satisfaction, we continue to contribute to strengthening India's power sector.

## MISSION

To be a trusted leader in the infrastructure industry by delivering top-quality and reliable services in Power sector components. We aim to power progress by supplying innovative, safe, and efficient electrical solutions that meet the evolving needs of infrastructure, industry, and society. Our vision is to grow sustainably while setting benchmarks in quality, service, and customer satisfaction across India and beyond.

## VISION

“We aim to be a trusted leader in the power infrastructure sector, known for innovation, integrity, and quality. Our goal is to provide reliable EPC services in transmission lines, solar power, and related fields. By combining expertise and efficiency, we strive to build strong, future-ready electrical networks that support the nation’s growth while expanding into new sectors and regions for lasting impact.”

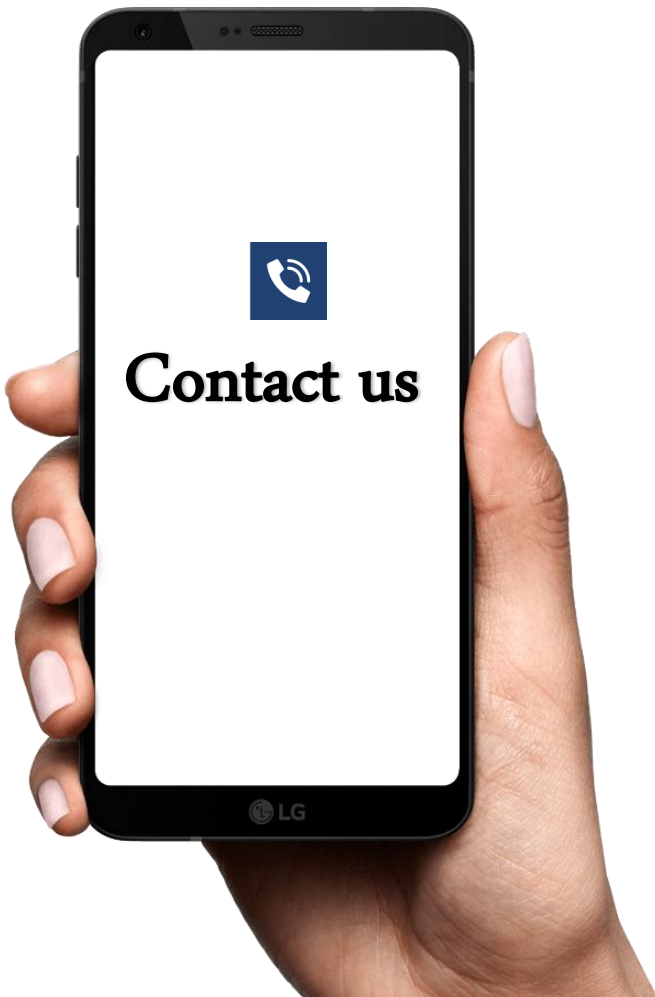

# OUR EXPERTIES

- ✚ 33KV, 11KV and LT transmission line INSTALLATION
- ✚ HT & LT Substation installation
- ✚ Turnkey Solar Projects
- ✚ Solar and Wind Projects Land Survey
- ✚ Bay work
- ✚ Solar Plants Annual Maintenance Contract
- ✚ HT/LT Line Maintenance Contract
- ✚ Electrical Utility Shifting Work
